

Qualifications of Your Evaluators

As an applicant, please choose two evaluators, one an advanced clinical social worker* and one an advanced clinical social worker or clinical psychologist (doctorate) or psychiatrist (M.D. or D.O.). On the Evaluator Registration screen, tell us whom you have chosen to judge your abilities as a specialist in clinical supervision.

* Characteristics - Master's degree in social work; at least five years of post-graduate clinical social work practice, including two years under supervision; current in practice (3,000 clinical practice hours in the past 10 years including at least 300 hours in the past year); licensure in good standing at the highest clinical level available in each state (or jurisdiction) where they practice (unless exempted by terms of government employment).

An Evaluator has direct knowledge of your specialty practice as a Colleague, Supervisor, or Consultant as described below:

- ❖ **Colleague** in peer group of supervisors or in workplace with you and can assess your supervisory practice
- ❖ **Supervisor** who formally supervised your clinical practice
- ❖ **Consultant** who consulted to your supervisory practice.

An Evaluator must have at least one full year of direct knowledge (in the past four years) of your clinical supervising and, at the outset of that year:

- ❖ have (in addition to the full year mentioned above) at least five years of post-graduate clinical practice before the start-date of contact with you
- ❖ hold state licensure in good standing at the highest clinical level in each state (or jurisdiction) in which they practice, unless exempted by terms of government employment

An Evaluator must NOT be related to you.

Note: you are responsible for staying in touch with your Evaluators so that they mail their evaluations within one month of our receipt of your application materials.
